HYDRAFACIAL MD

HydraFacial is a medical-grade device offering 6 facials in a 1 hour treatment. It uses advanced, patented vortex technology to deeply cleanse the skin and effectively deliver botanical ingredients containing nutrients such as hyaluronic acid, horse chestnut seed extract, red algae extract, copper, zinc and magnesium peptides to where they do the most good. In addition, HydraFacial also delivers powerful antioxidants to counteract damage by free radicals – from pollution, sun and stress – which can degrade the skin and accelerate the ageing process.

HydraFacial is so much more than just another facial. It's an experience. A pleasure. A feeling. And a confidence booster. It focuses on the unique philosophy of 'Skin Health for Life'. But, it's also about much more than just great looking, healthy skin. When our skin looks good and feels good, we feel good too. That's the difference you get with a HydraFacial.

So, for long-term healthy skin and a glowing complexion why settle for an ordinary facial, when you can choose a HydraFacial?

DMK SKINCARE

DMK believes that the origin of most skin conditions is a result of disharmony within the skin. Using the principles of biochemistry, DMK has formulated a range of treatments and products designed to educate skin to perform like youthful healthy skin. By matching formulations with the body's chemistry, the skin is encouraged to respond in a positive manner.

DMK's revolutionary concept of REMOVE, REBUILD, PROTECT, MAINTAIN aims to match an individual's biochemistry with the appropriate skin therapy. Botanical-based paramedical products make up the DMK skin care program.

LAMPROBE

The Lamprobe combines high frequency and radio technology to get rid of skin irregularities. Treatments are done on individual skin problems one at a time and it usually takes only a few seconds to minimize the undesirable skin conditions or concerns such as

HI-FU

HIFU stands for High Intensity Focused Ultrasound and it uses ultrasound energy to encourage the production of collagen, which results in firmer skin.

HIFU targets deeper layers of skin and results last for a couple of years.. The ultrasound energy causes the tissue to heat up rapidly. This causes cellular damage which will then stimulate the production of new collagen in the area targeted. The increase in collagen results in tighter and firmer skin, improved appearance on areas of jowling or loss of

chest and décolleté massage, this facial has been created by us to completely de-stress the body, mind and soul using natural skincare.

It's the perfect treat if your looking for some TLC or to gift a loved one some TLC
